

Collection and disposal of industrial, agricultural and household chemicals

CHEMICALS | SPRAYS | PAINT  
SOLVENTS | HAZARDOUS MATERIALS  
PROVEN SERVICE • FULLY COMPLIANT

## ChemCollect provides a comprehensive collection and disposal service for:

- Industrial users & manufacturers
- Importers & distributors
- Retailers & vet clinics
- Hospitals, schools & laboratories
- Councils, contractors & service providers
- Households and anyone else wishing to dispose of chemicals

## Take advantage of secure, compliant and hassle-free collection and disposal

Incorrect disposal of chemicals and other hazardous items is harmful to people and animals, as well as our land and waterways. An increasing focus on Health and Safety and minimising environmental harm, means you can't afford to take chances with your hazardous waste. Our highly experienced team will work closely with you, whatever your requirements, to provide timely and compliant collection and disposal.

### Give us a call if you have:

- ✓ Unsold or expired stock
- ✓ Obsolete, banned or unusable products
- ✓ Industrial chemical waste or byproducts
- ✓ Unknown liquids or powders

**3R Group - experts in collection and disposal of hazardous materials**

**3R Group are passionate about preserving New Zealand's natural environment.**

For every tonne of chemicals collected, we will also donate \$200 to a Million Metres Stream Project, supporting the protection and restoration of New Zealand's waterways.

## Let 3R Group take the pain out of chemical disposal

3R Group has 10 years' experience working with hazardous materials. With our specialised vehicles and fully qualified staff, we provide a wide range of services tailored to your needs.

- ✓ On-demand collection for commercial quantities
- ✓ Regional collections ensure cost effective disposal for smaller quantities
- ✓ Event-based collections for councils and other organisations

## Best practice disposal according to New Zealand regulations

We use best practice collection and disposal methods in accordance with all New Zealand regulations. We assist New Zealand to meet its obligations under the Stockholm Convention for the elimination and disposal of persistent organic pollutants.

**Segregation | Identification | Transportation | Treatment | Disposal | Reporting**

## About 3R Group

3R is a New Zealand business helping customers recycle or responsibly dispose of used products and packaging. We focus on tricky products that can't be managed using mainstream services, and work with businesses, industry and government on a range of initiatives to reduce waste to landfill. We've safely collected hundreds of tonnes of hazardous products nationwide since our business started in 2005. We operate in accordance with the ISO-14001 Environmental Management Standard and are a certified carboNZero™ company, so you can be confident that disposing of your chemicals through ChemCollect won't impact negatively on the environment.
